

IGIAT EXTENSION CENTERS

This is intended to provide to the students and faculties of partnering engineering colleges, access and training on various advanced technologies like Embedded Systems, VLSI, CISCO Networking, CAD/CAM, GIS, GPS, Total Station and Dot NET in their respective campus. An innovative model is proposed to make wider outreach of technology to large number of students and faculty.

Training will be delivered on site through mobile kits and with the latest software by IGIAT experts in coordination with the partner college faculties. Training courses requiring major equipments such as CNC machines, PLC and Drives, will be provided at IGIAT at mutually agreed time.

The students and faculty of the partner college will be benefitted from the in house access to various advanced technology and experts available for students and faculty. The benefit to IGIAT is in terms of up-scaled operation, wider outreach and better utilization of available facilities.

EXTENSION CENTER

AT

VIGNAN INSTITUTE OF INFORMATION TECHNOLOGY

Indo German Institute of Advanced Technology, IGIAT Visakhapatnam is up scaling its outreach, extending the benefits of its facilities and services at the door step of various colleges in Andhra Pradesh. In line with strategy IGIAT signed a MoU with VIGNAN College on 7th August 2009. Under the MoU, Department of Information Technology taken initiative to start CISCO Certified Network Associate Program (a Value added program) for their 3rd and 4th year students in association with IGIAT on 9-10. The training will be delivered by CISCO certified Instructors with industry experience using Industry grade equipment and Machines. The students will also be helped in designing & developing their projects with an approach of learning by doing in an Industry like environment.
